

B.Sc. (CS) / B.Sc. (IT)

(Bachelor of Science in Computer Science / Information Technology)

Duration: 3 Years Course

Eligibility: 10+ 2 (PCM)

First Year

Common:

Foundation Course, Environmental Studies, Physics, Mathematics

CS:

Introduction of Computer & Operating Systems, Computer Digital Electronics, Working with MS Office (Word/ Excel/ PowerPoint), Working with Internet, Programming with C

IT:

Fundamental of IT Computers & PC Software, Programming Concept using C language

Second Year

Common:

Foundation Course. Physics. Mathematics

CS:

Classification and Organisation of computer, Central Processing Unit, Memory of Computers, I/O Devices, System Software and programming Technique, HTML, Programming Concept using C++

IT:

Digital Circuits & Computer hardware, Programming Concept using C++

Third Year

Common:

Foundation Course, Physics, Mathematics

CS:

Micro Processor & Micro Computer, System Hardware organization of computers, Organization of operating system with System Hardware, Organization & handling by Operating System, Organization of Hardware by Operating System, Concept of DBMS and Relation Data base Management, GUI Programming, Data base programming in VB

IT:

Amplifiers & Oscillators
Fundamental Data Structure
