From the Chairman's Desk

To meet the need of this fact – changing education scenario, Central College has decided continuous expansion of the education program, in order to provide wider options for shaping careers by keeping in view today's need.

Central College will make candidates – training by means of carefully planned & designed professional courses.

I ensure uniformity with high level of functionality, students – Friendliness, well equipped labs, maintained class rooms, high quality of learning for not only university course structure, but also through the college self designed training norms & additional modules.

We are truly committed towards 360 [degree sign] core personality developments by means of seminars, competitions, brainstorming sessions, education, tours, management games, writing sessions, sports activities etc. Our staff is well qualified & experienced, which makes us a perfect team. Continuous research work and analytical support of our esteemed Advisory Council is a great asset for us.

Mr. H.P.S. Uppal

Prerna Educational Society

This is one of the renowned societies in Raipur city and owns two prestigious institutes in the city. The society was formed in 2001 and is registered under Society Act 1973. The rich educational background of Prerna Educational Society certainly would like to fulfill the needs and requirements of technical manpower in India in general and in the State of Chhattisgarh in particular.

Prerna Educational Society has acquired a remarkable recognition in the educational scenario of the city for imbibing with sense of self-discipline, self-confidence and self-motivated accomplishment to more than 900 students every year through CENTRAL COLLEGE OF INFORMATION TECHNOLOGY (Under Graduate & Post Graduate). Looking to the fast growing and ever changing needs of the country, the society has come up with its second institute CENTRAL COLLEGE OF ENGINEERING & MANAGEMENT with an aim to build technocrats and corporate professionals who can contribute efficiently to the country's technological and economical growth.

About
Central College
And It's Enriched Tradition of Education

Central College of Information Technology, Raipur, was set up in response to the need of Chhattisgarh. It pioneered in IT, Commerce, Education, Science, Science and Management – with radically different research based training philosophy.

The belief in the great power of "Technology", has came down through ages. Starting with industrial revolution, journeying through lots of inventions and discoveries. Need is to visualize and evaluate the technological advancement. More importantly to accept and adopt technological innovation and advancement of centuries.

Our Former Prime Minister Shri. Atal Bihari Vajpayee rightly envisions "IT" as "India Tomorrow".

Mission

Quality education with efficiency, effectively and scientifically designed and developed tools, techniques and methodologies focusing towards re-engineering of personality, knowledge, skill & attitude.

Vision

Central College visualizes Chhattisgarh as a "Valley of Thoughts and Prosperity" backed with enriched natural and mineral resource, strong industrial and power sector, excellent educational institution and much more. There always lies a scope for betterment and advancement. Today, the market is moving towards net. It's the word of communication where technology, accuracy, reliability and promptness matters a lot.

The Best Career Objectives

Central College is performing with following objectives:

- To create knowledge through research & continuous efforts in the field of education, and the disciplines on which they are based, and to disseminate such knowledge through scientifically designed teaching Philosophy.
- To provide facilities for imparting training to all for better career options in focusing towards Corporate sectors.
- To assist organization in solving their Information Technology, Commerce, Education, Science and Management problems by providing consultancy and training.
  To collaborate with other organization in India & abroad for further training & global career prospects.
- To provide University recognized Graduation & Post Graduation Courses.
- To divert primarily government sector oriented educational philosophy towards rapidly changing needs and demands of multinational segment.
- To enhance the latest training modules & structure by keeping market requirements in view.
- To assist better placements for all.

Its Sheer Recognition

Central College of Information Technology is proud to be affiliated to : Pt.Ravishankar Shukla University, Raipur

College Culture & Ethics Culture:

The Central College has set before itself, a twin task:

To re-orient education and perform research and develop, market orient capsule course focusing towards the need of International requisites.

To develop assignments & project training through principles of right attitude, right philosophy & right Methodology

We aim at developing three- Dimensional personality of Our Students:

"TRUST, BELIEFS & PRINCIPLES"

Ethics:

Informality, flexibility, humanistic approach, smooth inter-personal relationship, family spirit & spirit – de-corps characterize the Central College culture. Development of the whole person, personal growth, personal integrity and ethics between candidature, corporate & public sector.

Faculty, students & staff contribute to further strengthen and develop the college culture.
